

Your trusted steel partner that delivers both
SERVICE & QUALITY

E-STEEL PTE LTD was incorporated in 2007, we are stockist for pipes, fittings, flanges, structural steel and provide complete solution partner for piping systems components and structural steel sourced from leading high quality manufacturers around globally. We are also a leading service oriented company with trusted customer relationships established. Through our global sourcing, demanding product standards, quality control, level of service, and long standing partnerships, we are able to provide the highest quality steel piping systems components and structural steel products available in supplying mainly involved in Construction, Engineering, Fabrication, Contractors, Petrochemical Industries, Power Plants, Shipbuilding, Oil Refineries and Gas Processing Plants.

We have been accredited ISO 9001:2015 Quality Standard since 2011.

OUR VISION

The most reliable leading provider of high quality, globally sourced steel piping systems components and structural steel for all of our valued customers.

OUR MISSION

Exceeding all of our customers expectations and needs in providing high quality steel piping system components and structural products, through excellent service and successful partnerships with our valued customers, business associates and employees.

OUR VALUES

- **Customer focus:** To understand and exceed customer expectations and needs, while continuing to excel in customer satisfaction, towards developing value added customer relationship.
- **Commitment:** To take ownership in everything we do. To take pride and responsibility in our daily tasks and continually work towards exceeding customer expectations.
- **Innovation:** Nurture creativity and innovation in the workplace. Demand this attitude from all of our partners, business associates and colleagues.
- **Teamwork:** Ensure that all of our employees work towards a common goal to fulfill the overall objectives of **E-STEEL PTE LTD**.
- **Excellence:** Create an environment for continual learning and improvement. Seek professional and personal excellence in all aspects for which we are involved.

OUR PRODUCTS

E-STEEL PTE LTD stocks a wide range of high quality carbon and stainless steel piping systems components and structural steel to satisfy all our customer needs, including customer usage and specific project requirements. Often exceeding our most demanding customer expectations. All our products are in full compliance with ASTM/ASME, API, EN, JIS, ABS and other international standards.
